ACCEPTANCE LETTER

We, the undersigned Johannes Gutenberg University Mainz/OPATZ lab, confirm we are willing to host Dr. Marcos Roberto Scheide Neto for an internship. Titel: Synthesis of chalcogens-containing hesperidine derivatives with potential activity against serine, threonine and cysteine proteases.

Period of internship: from 01/06/2024 till 31/12/2024

- Knowledge, skills and competences to be acquired: Most of the period at the host organization, the University of Mainz, will be devoted to activities in a chemistry laboratory.
- Detailed programme of the internship period: This can be found in the research plan, which we hereby approve.
- Tasks of the trainee: The trainee will collaborate with the students working at the host institution on the development of said reactions, will learn standard laboratory techniques and will train the analysis of the results obtained.
- Monitoring and evaluation plan: The progress in the development of the project during the internship will be monitored by the supervisor at the host institution, Prof. Opatz.

We hereby confirm that the applicant's language skills are sufficient for the activities and communication in our laboratory.
