¹ Average grade of all assessments written for the given course during the given semester.

² Recognized assessment

³ Credit points assigned to the individual assessments of a module represent the weight of the assessment within the module. The sum of credit points of all passed individual assessments is referred to as "provisional credit points" and does not depend on the module being passed.

As provisional credit points do not depend on modules being passed, they conflict with the European Credit Transfer System (ECTS) and may only be used internally at the Universität Bayreuth.

⁴ Free assessments are not assigned to a module and therefore cannot be weighted. The provisional grade in free assessments calculates as the unweighted average of all assessments passed with a numerical grade.
